

Dear Parents,

We know how important your children are to you. We want to help you keep them safe.

Please review with your children the ideas presented in this activity book. Listen to their questions and help them understand why these safety concepts are important. Practice will help them develop good safety habits. Reinforce positive behavior and take time to answer their questions.

The most important thing you can do is set a good example. Children will often imitate what they see you do in spite of what you say. Show them how to be a safe pedestrian. Develop a family rule of always wearing seat belts. Show them your respect for the rules and laws which help to keep us all safer.

The things you teach your children now may someday save their lives.
